

# Retail lockers

## Customised to your customers' requirements no investment cost for you

ELTS lockers help your customers store their belongings safely and conveniently when they shop. Providing lockers is not only a service to your customers but also an investment in reducing shoplifting by allowing your customers to store bags and shopping outside the shop. The lockers are easy to use, and customised

in size and design to suit your business. Our knowledgeable staff will help you find the best storage solution.

A simple way to offer your customers this indispensable service. Find out more – contact us today.

Technical specifications: see next page

# Technical specification

The lockers are supplied by European Locker and Travel Service (ELTS). We bear the cost of the investment, installation, maintenance and replacement parts, at no cost to you. All you need to do is provide the floor area, check that lockers are emptied and account for the revenues to us using predetermined procedures. Our business concept is to provide left-luggage lockers free of charge and share a percentage of the revenues.

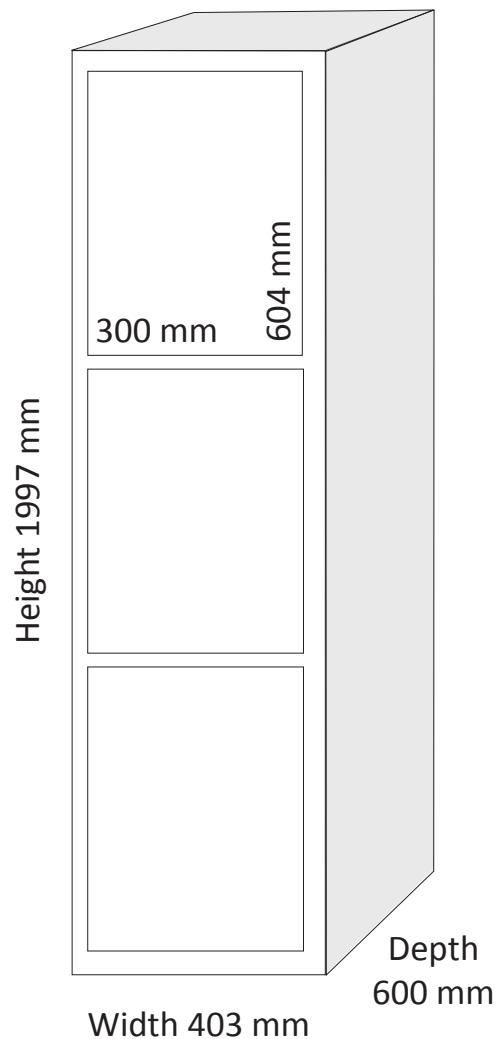

Retail lockers are mechanical lockers. The customer is given a key on payment for the locker.

ELTS has many years' experience in lockers, and we have a presence in many places in Europe. Our knowledgeable staff will help you to be totally satisfied with your storage solution.
